

Colorado Renewable Energy Society offers several business membership levels to fit any organization. Advantages of a business membership include reduced sponsorship levels for our two annual key events, the Colorado Renewable Energy Conference and the Tour of Solar homes. Other benefits include our spotlight for your group in CRES News and on the CRES website. Also, we will have you introduce your company at one of our monthly meetings. Our business members are the strongest link to our renewable energy community and enable CRES to bring information and sources to our 900+ members.
