

## **Call For Entries**

The Colorado Renewable Energy Society is pleased to announce its  
Call for Entries for the  
*2009 Renewable Energy and Sustainable Design in Buildings Awards*  
for Architects, Contractors, Owners and Builders.

- The awards aim to encourage the use of renewable energy and sustainable design strategies or technologies. These include passive solar, photovoltaics, solar thermal water or space heating, wind power, geothermal heating and cooling, daylighting, natural ventilation or others.
- Awards will be presented at the Colorado Renewable Energy Conference at the Colorado School of Mines in Golden, August 28-30, 2009.
- Media releases about the award winners will be distributed to major state and local media.
- Photos of and information about the award winners will be featured on the CRES web site.

Entry form and full details are available at

[www.cres-energy.org/about\\_awards.html](http://www.cres-energy.org/about_awards.html)

Or call or email Werner Duecker at (720) 214-1551

[wduecker@chamberlinarchitects.com](mailto:wduecker@chamberlinarchitects.com)

Deadline for entries has been extended to June 26, 2009

If you know of a building that incorporates renewable energy and/or sustainable design, **even if you are not directly involved**, please tell us about the building and why you think it deserves to be recognized, and give us contact information for the owner or designer, so we can get more information
